

🚫 Important Parking Notice for Haverhill Residents 🚫

Keep Our Streets Safe, Clean, and Accessible

The Town of Haverhill reminds all residents of the **required parking regulations** that help protect pedestrians, preserve town property, and maintain safe travel throughout our community.

Where Parking Is NOT Allowed

Please **DO NOT** park:

- 🚫 **In the street**
- 🚫 **Across or blocking a sidewalk**
- 🚫 **On the grass**
- 🚫 **Along any bike path**
- 🚫 **In a swale or any town drainage system**

Violations of these rules may result in **Parking tickets**, and/or **Code Enforcement Violation Notices**

Let's work together to keep Haverhill safe and compliant.

Need More Parking Space? Here Are Approved Options

1. Clear Out Storage From Your Garage

Many residents find that simply reorganizing or relocating stored items frees up enough space to park vehicles **inside the garage**, removing the need to park in prohibited areas.

2. Widen Your Driveway (Permit Required)

If additional off-street parking is needed, you may consider **expanding your driveway**.

👉 **A building permit is required** before starting any driveway widening or construction project.

Contact the Town of Haverhill for building permit information and guidelines.

Thank You for Your Cooperation!

Your compliance helps protect our neighborhoods, ensures walkability, and keeps our town looking its best.
